

Seminar Title: NFPA 13, 14, and 20 2016 Edition Update

Seminar Description: Bring your 2016 Edition of the sprinkler, standpipe and fire pump standards, a notebook and a highlighter. This full day seminar discusses the significant changes to the sprinkler, standpipe & fire pump standards.

The seminar will go completely through the standards, and not just identify the new requirements, but discuss the reasons supporting them and the issues behind them as well as their potential impact. Attendees will also be provided with a list of the section locations of significant changes in the standards.

Attendees should bring a copy of the 2016 Editions of the standards.

Total Instructional Time: 8 Contact Hours

Learning Outcomes: At the conclusion of this seminar the participant will be able to:

1. Identify the changes between the 2013 and 2016 Edition of NFPA 13
2. Identify the changes between the 2013 and 2016 Edition of NFPA 14
3. Identify the changes between the 2013 and 2016 Edition of NFPA 20
4. Describe the impact that these changes have on system design and installation

Seminar Format(s): Lecture, Discussion, Problem Solving

Participant Materials: Participant Guide

Assessment Method: In-class participation, Question and Answer
